

Dear

Global People Power is about to launch its first campaign. As someone I trust and respect on the issue of it would be great if you got involved by sharing your understanding. Our mission is to crowd-source legally binding global economic, trade, social, peace and environmental agreements and to take action to pull nations together to make them happen.

Would you please propose a policy on our [Global People Power Represent e-democracy group](#)? To build maximum capacity, would you then help create a social media storm by encouraging your many followers to debate and vote on it? To harness the power of women and to achieve democratic gender equity, we strive to have two thirds female, and those who identify as female proposing policy. This will balance out over time.

Please propose:

If you know of a better proposal then please tell me.

Our strategy is to unite the growing number of supporters of progressive campaigns and political parties around the world behind a range of policies to globalise justice, peace, equality, prosperity and sustainability. By linking together, the movement will present itself as a more coherent force and therefore a significantly more electable prospect to a majority of mainstream voters participating in their national elections. We believe this is the most powerful and positive way to stem the terrifying global rise of the far-right.

Through coordinating actions around the world demanding global justice cooperation and by prioritising votes for political parties who agree to participate, we aim to create sufficient momentum for an unstoppable global democratic revolution. In doing so we can tackle our most urgent global problems including the power that multi-national corporations hold over national governments.

The movement's global justice measures will be implemented by sovereign nations together in a cooperative, synchronised way so that no nation, community, individual or even corporation need lose out by doing the right thing. (Global policies will remain provisional, a work in progress until sufficient nations have agreed to cooperate.)

Please let me know if you have any questions and of your participation so that we can promote your proposal alongside others.

I look forward to hearing from you

Yours sincerely
