Politician's Earth Citizen Covenant

I am reclaiming my democratic sovereignty in a globalised world by becoming a Global People Power, Earth Citizen. **This means that I will be voting in national elections for politicians (unless they promote hate) who have joined our movement by becoming fellow Earth Citizens.**

By becoming an Earth Citizen and by signing this Covenant you are, if elected, agreeing to:

- Implement Earth Citizen Assembly's Global Policy Packages* alongside other governments.
- Create National Citizens' Assemblies to (A) agree or suggest amendments to the Global Policy Packages and (B) to deliberate on national policies which do not require global cooperative action i.e. they do not threaten to damage the nation's security or economic sustainability and can therefore be implemented immediately and unilaterally.
- Organise National Preferendums to agree, reject or suggest amendments to the Global Policy Packages.

As more people claim their Earth Citizenship, politicians and political parties joining our movement will have a greater chance of winning elections. They will be showing that they have the systemic global strategies to tackle the systemic global problems threatening all life on earth.

Politician's Earth Citizen Covenant

As a candidate for, or Member of the……………………………………Parliament/Assembly, I agree that, if elected, I will vote for Earth Citizens' Global Policy Packages* to be implemented alongside other governments. I will also encourage members of my party to make the Politician's Earth Citizen Covenant party policy. *The Global Policy Package will remain provisional until sufficient nations have agreed via national preferendum to act upon it. **I hereby hold myself accountable for tackling the causes of global challenges through global participative, cooperative action.**

If I revoke my covenant I will inform Global People Power, those I represent or seek to represent.

Open statement in support of Global People Power:
