Dear…………………………………………………..,

As someone I trust in general and especially on the issue of
…………………………………………….., I'd like to invite you to help kick-start Global People Power's democratic process.

Would you please propose a global policy using Democracy Earth's revolutionary app, [Sovereign](#) (include #GlobalPeoplePower) then help create a social media storm by encouraging your many followers to join the debate and vote on it?

Would you agree to propose…………………….
……………………….......................................….?

(Add links in the description to campaign groups which advocate your proposal).

We are using Sovereign for decentralized, peer-to-peer global governance. It is hosted using blockchain technology. Humanity can now suggest, debate, vote or delegate their votes (using a process called Liquid Democracy) on global policies.

Global People Power is a movement to encourage humanity to become Self-Sovereign World-Citizens, also using blockchain technology. Our mission is to create a sense of our common humanity in the face of a perfect storm of global challenges. At elections we will be coordinating our votes for politicians who sign a contract to implement World Citizens' *global policies alongside other governments.

We are reclaiming our democratic sovereignty in a globalised world. Humanity's global policies are not goals or demands. They will quickly become legally binding thus making obsolete international rules created behind closed doors.

*The global policies will remain provisional until sufficient nations have, through referendum, agreed to work together globally for the good of all. In the meantime, political parties joining our movement will have a greater chance of winning elections. They will be evidencing that they have networked, systemic global solutions to networked, and systemic, global challenges impacting voter's daily lives.

Please help us unite the world behind a coherent set of democratic global agreements and hasten their full implementation.

I look forward to hearing from you

Yours sincerely
